All Working Papers are downloadable (Open Access)

The Working Paper Series of the Africa Multiple Cluster of Excellence, **Africa Multiple connects** offers a forum for research conducted and presented by researchers affiliated to the Cluster. The series also accommodates papers such as invited lectures, workshop contributions, or conference papers submitted by the Cluster's guests and visiting scholars.

Established in January 2019 through the Excellence Strategy of the German Federal and State Governments, and building on a long record in African Studies at the *University of Bayreuth*, the *Africa Multiple Cluster of Excellence* pursues an innovative agenda as expressed in its subtitle, *Reconfiguring African Studies*. The Cluster hosts almost one hundred fifty scholars from three continents, all representing a diverse range of academic disciplines and pursue joint research interests together with partner institutions in Africa, Germany, Europe, Asia, and the Americas. Our understanding of the reconfiguration of African Studies focuses on stimulating new theoretical approaches and includes the creation of new forms of academic collaboration.

Our key concepts are *multiplicity*, *relationality*, and *reflexivity*. We employ them to capture the dynamic interrelationship of diversity and entanglement that characterize African and African diasporic ways of life and world-making.

Africa Multiple connects complements the existing Working Paper sub-series published under the umbrella of the *University of Bayreuth African Studies Working Papers*: academy reflects, the sub-series featuring research by fellows and postdoc working groups of the *Bayreuth Academy of Advanced African Studies*, which is now part of the Africa Multiple Cluster; and BIGSASworks!, the platform for publishing research-related articles and edited volumes by Junior Fellows of the Bayreuth International Graduate School of African Studies (BIGSAS).

Contributions to the *University of Bayreuth African Studies Working Papers* can be submitted to the managing editor of the series Africa Multiple connects **Dr. Doris Löhr** (doris.loehr@uni-bayreuth.de).
